Certificate Programs:

Dental Assisting Course, 270 hours

Lecture Hours: 45, Clinical Hours: 225

Program Description:

Lecture is based on the dental assisting textbook provided with the course. Approximately 9-12 hours of lecture precede the first opportunity for hands-on experience, but students are encouraged to begin their clinical/lab training very soon after being introduced to the methodology through lecture. Clinical/Lab training can be arranged to fit the student's schedule during normal operating hours of participating clinics. Students will work one on one with current Dental Assistants and Doctors at participating clinics while under the tutelage of Midwest Dental Assistants School faculty.

Program Objective:

To be able to perform four-handed dentistry, take impressions, take, develop and mount x-rays, seat and dismiss patients, give oral care instructions, and ensure the comfort of patients.

Occupational Objective:

The graduate will be qualified to acquire an entry-level position in the field of dental assisting.

Course Completion:

The classroom portion of the dental assistant course is 45 hours. Students have 18 months from the date of the first class meeting in which to complete the extern portion of the course. If students do not complete the extern portion of the course within 18 months and desire to complete the course, they must reenroll and pay a fee of \$500.00. They must again attend the classroom portion and have 18 months in which to complete the extern portion of the course.

Hepatitis B Immunization: Hepatitis B is a liver infection caused by the Hepatitis B virus (HBV). For some people, Hepatitis B is an acute, or short-term, illness; but for others, it can become a long-term, chronic infection. Chronic Hepatitis B can lead to serious health issues like cirrhosis or liver cancer. The best way to prevent Hepatitis B is by getting vaccinated. All students must have received the first of a three-injection series that covers a six-month period before beginning their clinical extern work in a dentist's office. If a student received the series more than 10 years prior or did not complete the series, the student must get a titer from his local physician to reveal his immunity to Hepatitis B. For more information, go to <http://www.cdc.gov/hepatitis/HBV/index.htm>.

Attendance Requirements

Students are expected to arrive at class on time with the proper materials. All students enrolled in the Midwest Dental Assisting School are allotted two absences from classroom lectures per course. If a student accrues more than two absences, the student will be dismissed from school. Tardiness consists of being more than 15 minutes late to a class. Being tardy twice is equivalent to one absence. Lectures cannot be made up. It is the student's responsibility to contact the instructor to set a time to make up missed assignments or labs. A student may have one excused absence during the 15-week course for a death in the family involving a parent, child, spouse, or sibling or for a stepparent, stepchild, or stepsibling.

If a student needs to take an extended time off for family, medical or any other reason, he need not reapply but must contact the Director to set a new start date. Students who are unable to continue classes for medical reasons or severe personal problems will be required to take a leave of absence until they are able to return to class, or they may choose to withdraw from school. The student must give a signed and dated statement in writing to the instructor, who will forward it to the main campus. The Program Director will approve or disapprove the request. If the student is not able to return to school, the refund policy will dictate the amount of refund, if any. If the student is able to return to school, he may re-enroll at a later date and complete the curriculum.

Each lecture is three hours long. Students should be prepared to expend at least 6 hours a week on personal review and study after each lecture.

Progress Policy

Students are evaluated by Midwest Dental Assistants School faculty on an on-going basis to determine if they have attained the necessary competence to perform acceptable work. Any deficiencies are thoroughly discussed with the student and further explanation and training are provided. This one-on-one, hands-on process enables both student and instructor immediately and constantly to be aware of the student's level of performance.

The lead dental assistant at the extern student's site will grade the student on each competency area of the extern packet: Evaluation and grading criteria are:

- 3 Student competently met the stated criteria without assistance
- 2 Student required assistance in order to meet the stated criteria
- 1 Student showed uncertainty when performing the stated criteria
- 0 Student was not prepared and needs to repeat the step
- N/A No evaluation of this step.

A student also may be withdrawn from classes if he or she does not prepare sufficiently, neglects assignments, or makes unsatisfactory progress. The Program Director, after consultation with all parties involved, makes the final decision.

The Program Director may temporarily suspend students whose conduct is disruptive or unacceptable to the academic setting. After appropriate counseling, students who demonstrate a genuine desire to learn and conform to school standards of conduct, will be allowed to resume attendance.
